

Better Solutions for Storage

d-deck
wire decking

d-deck is a wire decking system designed according to **international standards** and all parts are produced by Demma.

- Experienced manufacturer.
- Perfect design.
- Continuous improvement and high quality.

Safety

- Crisscross design eliminates pallet slip risk.
- Improves fire safety by allowing faster sprinkler activation and more effective water penetration.

Performance

- Improves operator efficiency without compromising safety.
- Better stock handling.
- Improves inventory visibility and brightens your facility.
- Maintenance Free – Dust Free.
- Gives you the flexibility to store cartons and multiple pallet sizes.
- Design ensures load carrying integrity.

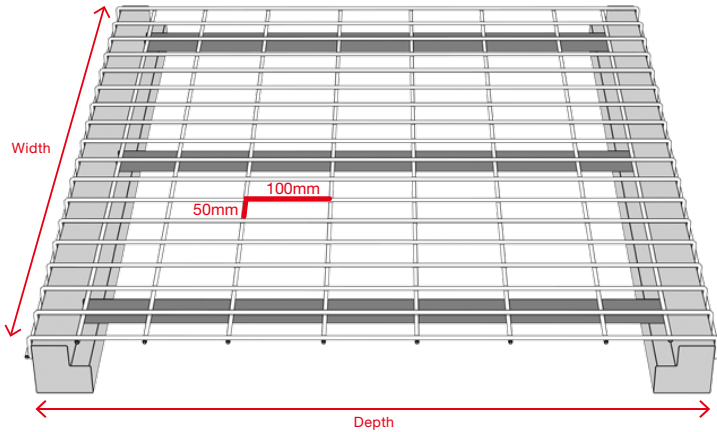

Installation

- Easy to install, simply drops into place.
- No tools, fixing or fastening required.
